Graphic / UX Designer.
Frontend Developer

DARIA GERMASH
FULL TIME | REMOTE | PART TIME

Hello! I'm originally from Ukraine and currently based in Leuven, Belgium, where I plan to build my long-term future.I'm passionate about design, programming, and continuous self-development.

As a responsible and collaborative team player, I'm dedicated to delivering exceptional results in every project I take on. Outside of work, I enjoy running, photography, and exploring new skills that inspire both personal and professional growth. Feel free to contact me and explore my experience and portfolio below:

Native tongue
Ukrainian, Russian

Commonly-Used languages

English **B2**   Dutch **B1**
(Keep learning)

SOFT SKILLS

I excel at understanding client preferences and transforming their ideas into effective solutions, even when their vision isn't fully formed. While my Dutch proficiency is still a work in progress, it does not affect my ability to comprehend user needs, communicate clearly with colleagues, or deliver tasks accurately and on time. I am fluent enough in English to ensure effective communication, while my ability to adapt allows me to thrive in diverse work environments and collaborate seamlessly with team.
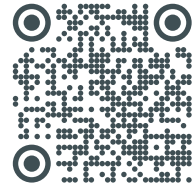

In addition, I am highly self-organized, detail-oriented, and take care of delivering work on schedule. I value responsibility and accountability in my role, whether working independently or as part of a team. My personal qualities and ability to build trust allow me to work equally effectively both remotely and in the office.
